Overview

The Monterey Board of Education has a responsibility to actively advocate fiscal and public policy conducted in accordance with legal requirements that supports the county's schools and the children in the community.

The Board and County Superintendent should consider developing an advocacy action plan to define expectations and responsibilities. This plan may include, but is not limited to, legislative priorities, strategies for outreach to the media and community, development of key messages and talking points, and adoption of positions on specific legislation, regulations, or budget proposals.

The Board's responsibility as an advocate for the Monterey County Office of Education (MCOE) may include lobbying and outreach at the state and local levels. The Board and Superintendent or designee should work to establish and maintain ongoing relationships with elected officials, community leaders, and the media in order to communicate MCOE's positions and concerns.

Ballot Measures/Candidates

No public funds, services, supplies, or equipment shall be used to urge the support or defeat of any ballot measure or candidate, including any candidate for election to the Board (Education Code 7054).

Whether an activity is an appropriate use of public funds or an impermissible campaign activity is a complicated analysis. County Office resources, including email or computer systems, shall not be used to disseminate campaign literature. In addition, County Office resources shall not be used to purchase advertisements, bumper stickers, posters, or similar promotional items that advocate an election result or urge voters to take any action in support of or in opposition to a measure, however, the resolution may encourage legislators to take action.

The Board may discuss and study the potential effect of proposed or qualified ballot measures on the county's schools at an open and agendized Board meeting. The Board's discussion of the effect of such measures shall include an opportunity for staff and members of the public to speak on all sides of the issue. At that meeting, the Board may adopt a position or resolution in support of or in opposition to a ballot measure. The language in any resolution adopted by the Board shall not urge the public to take any action regarding the measure.

Page 1 of 4 Adopted 9/21/11

The Board's position on a ballot measure, including any resolution, shall be publicized only through normal distribution procedures and consistent with regular MCOE practice for reporting Board actions. Such publicity shall be for informational purposes and shall not attempt to influence voters.

The Superintendent or designee may use County Office resources to provide students, parents/guardians, and community members with fair and impartial information related to ballot measures, including information about the impact of ballot measures on the County Office of Education (Education Code 7054).

In preparing or distributing such informational material, the Superintendent or designee should analyze the material to help ensure that it is an appropriate informational activity, provides a fair analysis of the issues, and does not advocate passage or defeat of a measure or candidate.

Legislative Advocacy

In order to strengthen legislative advocacy efforts, MCOE may work with organizations and coalitions and may join associations whose representatives lobby on behalf of their members in accordance with Government Code 53060.5.

MCOE has the authority to provide fair and impartial information about legislative issues affecting schools and children and can inform the community about its advocacy activities. However, informational materials about legislation shall not urge the public to lobby the legislature, Governor, or state agencies on behalf of MCOE.

The drafting of legislative proposals is a permissible use of public funds since it is more similar to the exercise of a local agency's governing authority than a campaign activity. The Board may ask the Superintendent or designee to draft legislative or regulatory proposals which serve MCOE's interests.

Legal Advocacy

When an issue requires resolution in the courts rather than through legislation, it is permissible for MCOE to use public funds to initiate or participate in legal advocacy. Toward these ends, County Offices of Education may choose to join with other County Offices in a group which funds and supports litigation in cases of statewide significance to its members.

Page 2 of 4 Adopted 9/21/11

The Board recognizes that some issues are more appropriately addressed judicially rather than legislatively. When a legal issue is likely to set a state or national precedent, MCOE may join with other school organizations or parties in order to resolve the issue through litigation or other appropriate means.

Political Forums

Forums on political issues may be held in school facilities as long as the forum is made available to all sides of the issue on an equitable basis (Education Code 7058).

Rights of Individuals

Restrictions on public school political advocacy do not apply to individual Board or MCOE staff members acting as private citizens on their own time and at their own expense. When acting as private citizens, individuals have broad rights under the First Amendment to engage in political activities, including taking positions on electoral measures and candidates and establishing and participating in political action committees.
