

PLACEMENT IN MATHEMATICS COURSES

The Monterey County Board of Education (County Board) believes that a sound educational program must include the study of subjects that prepare students for admission to higher education and/or a fulfilling career. To the extent possible, Monterey County Office of Education (MCOE) students shall be provided an opportunity to complete a sequence of mathematics courses recommended for admission into the University of California and California State University systems.

(cf. 6141.5 - Advanced Placement)
(cf. 6142.92 - Mathematics Instruction)
(cf. 6143 - Courses of Study)
(cf. 6146.1 - High School Graduation Requirements)

Placement protocols shall take into consideration multiple objective academic measures that may include, but are not limited to, interim and summative assessments, placement tests that are aligned to state-adopted content standards in mathematics, classroom assignment and grades, and report cards.

(cf. 5121 - Grades/Evaluation of Student Achievement)
(cf. 6162.5 - Student Assessment)
(cf. 6162.51 - State Academic Achievement Tests)

Students shall be enrolled in mathematics courses based on the placement protocols. No student shall repeat a mathematics course which he/she has successfully completed based on MCOE's placement protocols.

When a student does not qualify to be enrolled in a higher level mathematics course based on a consideration of the objective measures specified in the placement protocols, he/she may nevertheless be admitted to the course based on the recommendation of a teacher or counselor who has personal knowledge of the student's academic ability.

The placement protocols shall specify a time within the first month of the school year when students shall be reevaluated to ensure that they are appropriately placed in mathematics courses and shall specify the criteria MCOE will use to make this determination. Any student found to be misplaced shall be promptly placed in the appropriate mathematics course.

Within 10 school days of an initial placement decision or a placement decision upon reevaluation, a student and his/her parent/guardian who disagree with the placement of the student may appeal the decision to the Principal or designee. The Principal or designee shall decide whether or not to overrule the placement determination within 10 school days of receiving the appeal. The decision of the Principal or designee shall be final.

(cf. 5123 - Promotion/Acceleration/Retention)

PLACEMENT IN MATHEMATICS COURSES

BP 6152.1

(continued)

MCOE staff shall implement the placement protocols uniformly and without regard to students' race, sex, gender, nationality, ethnicity, socioeconomic background, or other subjective or discriminatory consideration in making placement decisions.

(cf. 0410 - Nondiscrimination in Programs and Activities)

The Principal or designee shall ensure that all teachers, counselors, and other MCOE staff responsible for determining students' placement in mathematics courses receive training on the placement protocols.

(cf. 4131 - Staff Development)

Prior to the beginning of each school year, teachers shall communicate MCOE's commitment to providing students with the opportunity to complete mathematics courses recommended for college admission, including approved placement protocols and the appeal process, to parents/guardians, students, teachers, school counselors, and administrators.

This policy and the mathematics placement protocols shall be posted on the MCOE web site. [Education Code 51224.7]

Annually, the Principals shall review student data related to placement and advancement in the mathematics courses offered at schools and programs within MCOE to ensure that students who are qualified to progress in mathematics courses based on their performance on objective academic measures are not held back in a disproportionate manner on the basis of their race, ethnicity, gender, or socioeconomic background. The Principals shall also consider appropriate recommendations for removing any identified barriers to students' access to mathematics courses.

(cf. 0500 - Accountability)
