

## EQUIPMENT, BOOKS AND MATERIALS

The Monterey County Board of Education (County Board) recognizes that student learning is enhanced when students have access to high-quality textbooks, equipment and other instructional materials for each of the subjects they are studying. The County Board-approved curriculum and instructional materials should also be current.

The Monterey County Superintendent of Schools or designee should develop procedures for determining the sufficiency of instructional materials if providing accurate, current information and ensuring that students have access to standards-based materials. When new instructional materials have been chosen in accordance with Monterey County Office of Education's selection and evaluation policy, the County Board shall make final decisions regarding their purchase.
